

Flower Car Funeral Coach

S&S VICTORIA FLORALE

Knowledgeable funeral professionals realize that a flower car provides much more than the mere movement of flowers. A handsomely designed flower car draped with beautiful flower arrangements creates a stunning, visual presence in a funeral procession. A true, casket carrying flower car is used only in the most prestigious funeral services and it is sure to be the focal point of the procession for both participants as well as bystanders. The S&S Victoria Florale Cadillac is the only commercial glass flower car available and it is literally and figuratively on a higher level than competitive models. Its striking appearance

and versatility make it the only flower car serious professionals need consider. Its unique, "270 degree", stainless steel flower deck allows sprays to be carried lengthways or draped from side to side or both. Its exclusive Bouquet Array side carriers, complete with drains, allow easy movement of basket arrangements. Combined, these features allow the Victoria Florale to display significantly more flowers than lesser models. Truly prestigious funeral services deserve the elegance provided by the S&S Victoria Florale.
